Gyan Chandra

Food Safety Management and Honey Expert
Dhanbad-Ranchi Area

Summary

I am a result driven, hardworking and capable Food Safety and Quality Management
professional with over 10 years of experience in the FMCG sector with demonstrated
achievement in Quality Management. Specialised skills in quality assurance activities
including audits recommending and implementing corrective actions and developing
and implementing safety processes. Skilled researcher of evolving food production
trends to optimize safety and sanitation of all products. Presently associated with
Ganpati Natural Products, Agra as Quality Control Manager Through the course of my
career, I have gained insightful experience in diverse areas of Quality Systems
Implementation, Testing & Inspection, Process Enhancement, Auditing & Compliances,
Documentation and Continuous Improvement. Solid understanding of Biotechnology,
Food technology, quality control, enzyme and fermentation technology. As a Certified
PCQI - Lead Auditor ISO 9001-2015, Lead Auditor FSSC ISO 22000:2005, BRC HACCP
professional, I have demonstrated strength by successfully facing various types of audits
such as EIA, BRC, FDA and True Source. Adding this, I also got recognized for
successfully handling major project on ‘Study on optimization production and partial
purification of Alfa amylase’ from agro industrial waste by Aspergillus Sp. Academically, I
have completed Bachelor of Engineering (Biotechnology) coupled with various

professional certification courses and trainings to crave a successful career in this
industry. A highly motivated individual with an entrepreneurial spirit who can ensure
that manufactured products adhere to the highest Quality standards. I always ensure
that the finished product meets the standard of company. Having extensive knowledge
of the theory behind practical quality assurance procedures and able to effectively liaise
with the manufacturing and production department when problem arise. I can be
reachable at nscgayn@live.com or call me on +91- 7004038481.

Experience

Self-employed
Consultant
June 2024 - Present (2 years 3 months)
Ranchi, Jharkhand, India

Dabur India Limited
Senior Associate Manager
February 2021 - June 2024 (3 years 5 months)
Kaushambi, Uttar Pradesh, India

KPMG India
Consultant
August 2018 - July 2020 (2 years)
Mumbai Area, India

As a consultant in KPMG, I work on a very ambitious project of Ministry of MSME; HONEY MISSION, which was executed by Khadi & Village Industries Commission.
Honey Mission was envisaged by honourable Prime Minister of India, Shri. Narendra Modi.
Prime Minister visioned to bring Sweet Revolution in the country by increasing the production of Honey and other hive produce. This project was also aiming for second green revolution in India by increased pollination.

Khadi & Village Industry Commission took initiative and trained beekeepers across the country. These trained beekeepers were further provided with 10 Bee-boxes with live colonies and beekeeping tools at subsidised rate. These beekeepers were also provided with hand holding supports by beekeeping master trainers.

As a consultant I evaluated the implementation of scheme in each state and provide the detailed report to KVIC Head office, Mumbai. During the evaluation of implementation of scheme I got opportunity to visit several state in India and interacted with KVIC officials and Honey Mission beneficiary. During these visit we capture good practice, gap in implementation of scheme, challenges and unique practice.

Highlights of Honey Mission journey over two years

Visited 16 states
Assessed 17 Honey Processing Units
Assisted in execution of National Beekeepers Meet in Pune
Conceptualised and designed quarterly news bulletin
Assisted in organising World Bee Day 2019 and 2020 at KVIC, Mumbai.
Organised Soft Skill Training
Designed creatives for Beekeeping and hive produce awareness
Assisted in Dedicated Website development

KVIC appreciated our professionalism and dedication on different occasion. Three appreciation letters were were given during the span of two years. Two individual and one group appreciation letter.

Ganpati Natural Products

Quality Manager

November 2016 - May 2018 (1 year 7 months)

Agra,India

In my current capacity, I am responsible for heading a team of more than 25 members including supervisors, executives, operation assistants and production team and managing overall activities of Quality Control/Quality Assurance and Internal audits of the organisation. I am also accountable for managing complete range of activities right from conceptualization to installation, testing & equipment maintenance. Efficiently coordinating

with teams and assisting for inspection procedures and requirements. Actively supervising and conducting quality control reviews at established inspection points, verify and maintain quality records. Instrumental in providing guidance to quality personnel to assure effective and competent performance of quality functions. Deftly recommending for facilities, equipment, personnel, procedures and systems to carry out quality control functions. Deftly handling complaint (quality) trends and reporting serious or repeated failure issues and recommend for corrective actions, plans for overall defect reductions in the product quality. Proficiently working in close coordination with Production, Engineering and Customer Service and administer all Quality Control Personnel and Inspection areas on regular basis. Apart from all, successfully performing other quality control functions as necessary or as requested.

ORGANIC HONEY LLP

Quality Head

November 2015 - November 2016 (1 year 1 month)

Bhiwadi

In this tenure of my career, I had been instrumental in setting up Organic Honey LLP, Bhiwadi unit independently from inception to production to execution; recruited manpower; set-up system and quality control processes and procedures to execute quality end product. Efficiently managed a team of over 15 members and developed quality control plans and work instructions; developed new samples and obtained final inspection approvals. Deftly planned and implemented effective predictive & preventive maintenance schedules for enhancing equipment reliability. Proficiently supervised manufacturing processes compliance with standards at both national and international level; coordinated with operating staff to establish procedures, standards, systems and procedures. Actively attended to troubled areas, taken corrective measures and preventive actions on internal/external rejection and customer complaints. Successfully developed, managed and monitored

performance of multi-skilled work force. Significantly involved in planning deployment of manpower as per skills and requirements and ensured adherence to all norms with maintenance of discipline.

Shakti Apifoods pvt. ltd.
Analyst
July 2012 - July 2014 (2 years 1 month)
Ludhiana Area, India

As a QC & QA Executive, I have successfully coordinated for overall Quality Control activities and was responsible for providing technical support. I also ensured strict adherence and compliance of in-house quality procedures, standards and specifications. Deftly assessed customer requirements and ensured meeting customer service standards. Proficiently specified quality requirements of raw materials with suppliers; investigated and set standards for quality, health and safety measures. Significantly prepared management & technical reports and attended to customer queries. Actively ssisted technical staff and acted as a catalyst for change and improvement in performance and quality
